

Todo empieza con una línea y un papel en blanco.

It all starts with a line on a blank canvas

Mediante nuestro proceso continuo de I+D, hemos llegado al desarrollo de los marcos ocultos de aluminio consiguiendo la integración total de las puertas en los muros.

Through our continuous R&D process, we have developed hidden aluminum frames achieving full integration of the doors into the walls.

Las mejores materias primas, el conocimiento artesano de los trabajadores que combinado con la tecnología mas avanzada da como resultado diseños exclusivos sin cesar en la búsqueda continua de nuevos modelos, colores y soluciones; Un reto diario para mejorar la calidad de nuestros productos.

The best raw materials, the artisan knowledge of our workers combined with the most advanced technology of our machines results in exclusive designs. Without cwsing in the continuous search for new models, colours and solutions; a daily callenge to improve the quality of our products.

Distintas aleaciones de aluminio, fabricado en modernas prensas de extrusión, permiten lograr un producto final de máxima calidad, al igual que todos los complementos que componen los marcos y puertas rasomuro.

Different aluminum alloys, manufactured in modern extrusion presses, allow to achieve a final product of the highest quality, as well as all the accessories that make up the flush frames and doors.

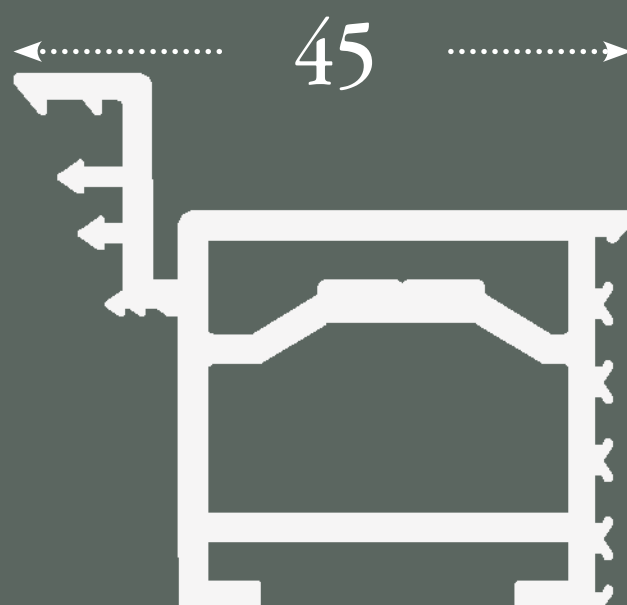

Minimal 45mm

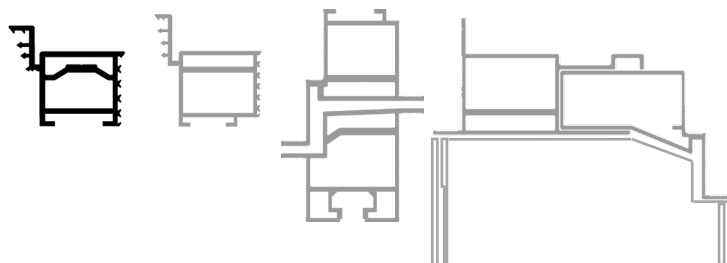

Minimal 45mm

El marco técnico de aluminio raso muro Minimal se incorpora perfectamente en la pared, dejando la puerta integrada en el entorno creando un diseño que combina lo funcional con lo esencial.

El color de la pared, el papel pintado, los murales y las decoraciones fluyen hacia la puerta sin interrupción. Integrando completamente todos los elementos del entorno.

La reversibilidad del sistema se determina durante la instalación: invierta el marco para voltear el ala y así definir la dirección (tirar o empujar) y poder establecer la dirección de apertura, derecha o izquierda.

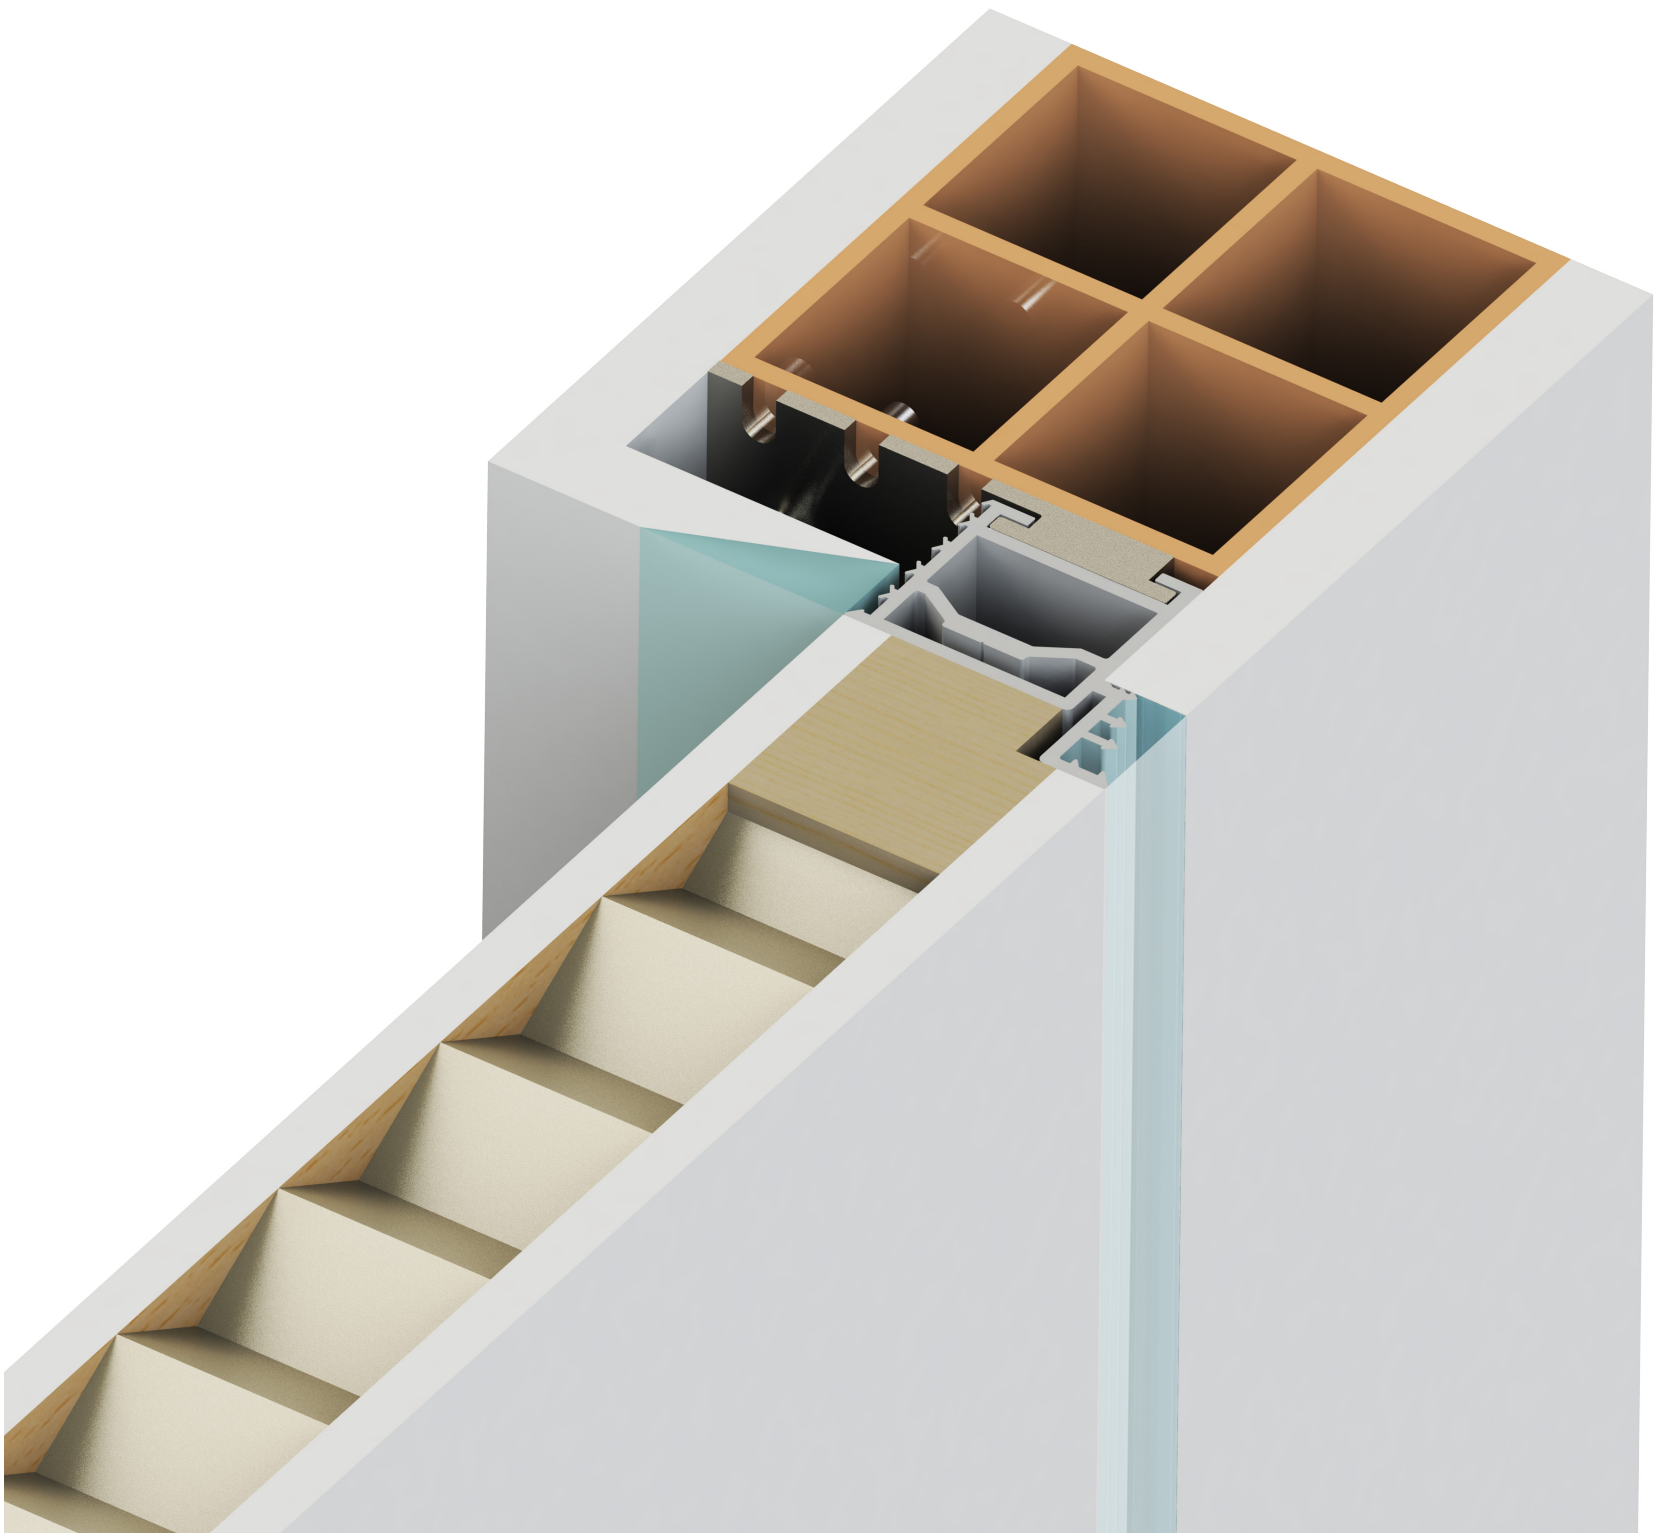

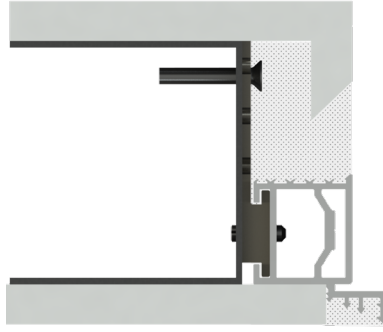

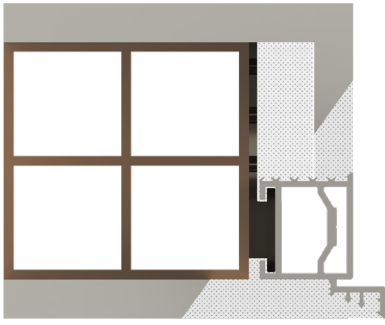

Minimal 45mm

The Minimal flush door aluminum technical frame is perfectly incorporated into the wall, leaving the door integrated into the environment creating a design that combines the functional with the essential.

Wall color, wallpaper, murals, and decorations flow into the door without interruption. Fully integrating all the elements of the environment.

The reversibility of the system is determined during installation: reverse the frame to define the direction (pulling or pushing) by simply flipping the wing you can set the opening direction, right or left.

CONTENIDO DEL KIT

KIT ELEMENTS

Marco perimetral de aluminio extruido pintado con acabado poroso blanco.

Perimeter frame in painted extruded aluminum with white porous finish.

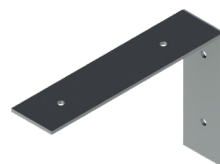

Soporte metálico de anclaje a pared de cartón yeso o mampostería

Adjustable metal bracket for drywall and masonry assembly.

Cerradura magnética, ideal para puertas reversibles con una perfecta simetría, adaptable a cualquier manilla. Apertura y cierre silencioso y fluido.

Magnetic door lock, ideal for reversible doors with perfect symmetry, is adaptable to any handle. Noiseless and fluid door opening and closing.

Escuadra angular para la unión del marco de aluminio vertical con horizontal.

Angle brackets for connecting vertical aluminium frame with horizontal.

Cerradero magnético.
Magnetic strike plate.

Goma Q-lon perimetral aislante antirruido.

Q-lon perimeter anti-shock gasket.

La bisagras ocultas aseguran la linealidad y la esencialidad del sistema de la puerta rasomuro, gracias al triple ajuste en los tres ejes.

The concealed hinges ensure the linearity and essentiality of the door system, thanks to triple adjustment on three axes.

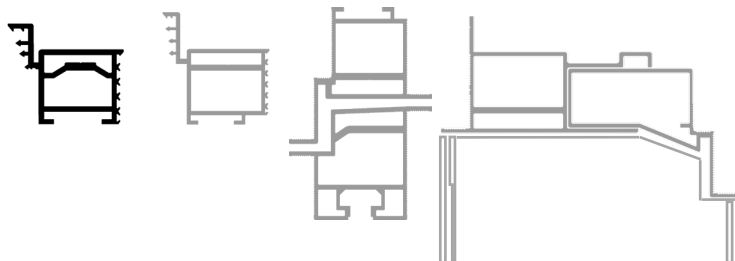

Refuerzos para facilitar el montaje aplomado.

Reinforcement for easy assembly.

Minimal Plus 55mm

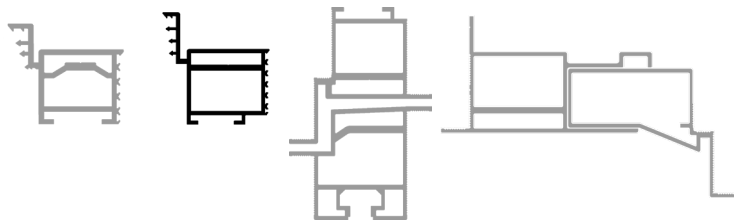

Minimal Plus 55mm

Minimal Plus 55mm

El marco técnico de aluminio raso muro Minimal Plus es valido para hojas de puerta de hasta 55mm. Su geometría permite la utilización de bisagras ocultas capaces de alojar mayor peso e incorporar gomas-burletes que nos den puertas acusticamente aisladas.

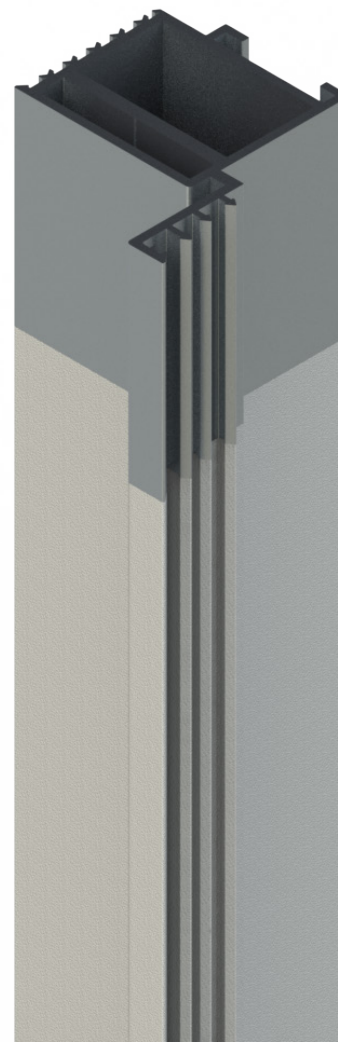

Quedando perfectamente integrados tanto marco como puerta en el entorno; el marco minimal plus ofrece una amplia gama de posibilidades a aquellos proyectos que necesiten espacios sin interrupciones, haciendo que la funcionalidad quede al servicio de la estética pero sin olvidar la eficiencia y calidad.

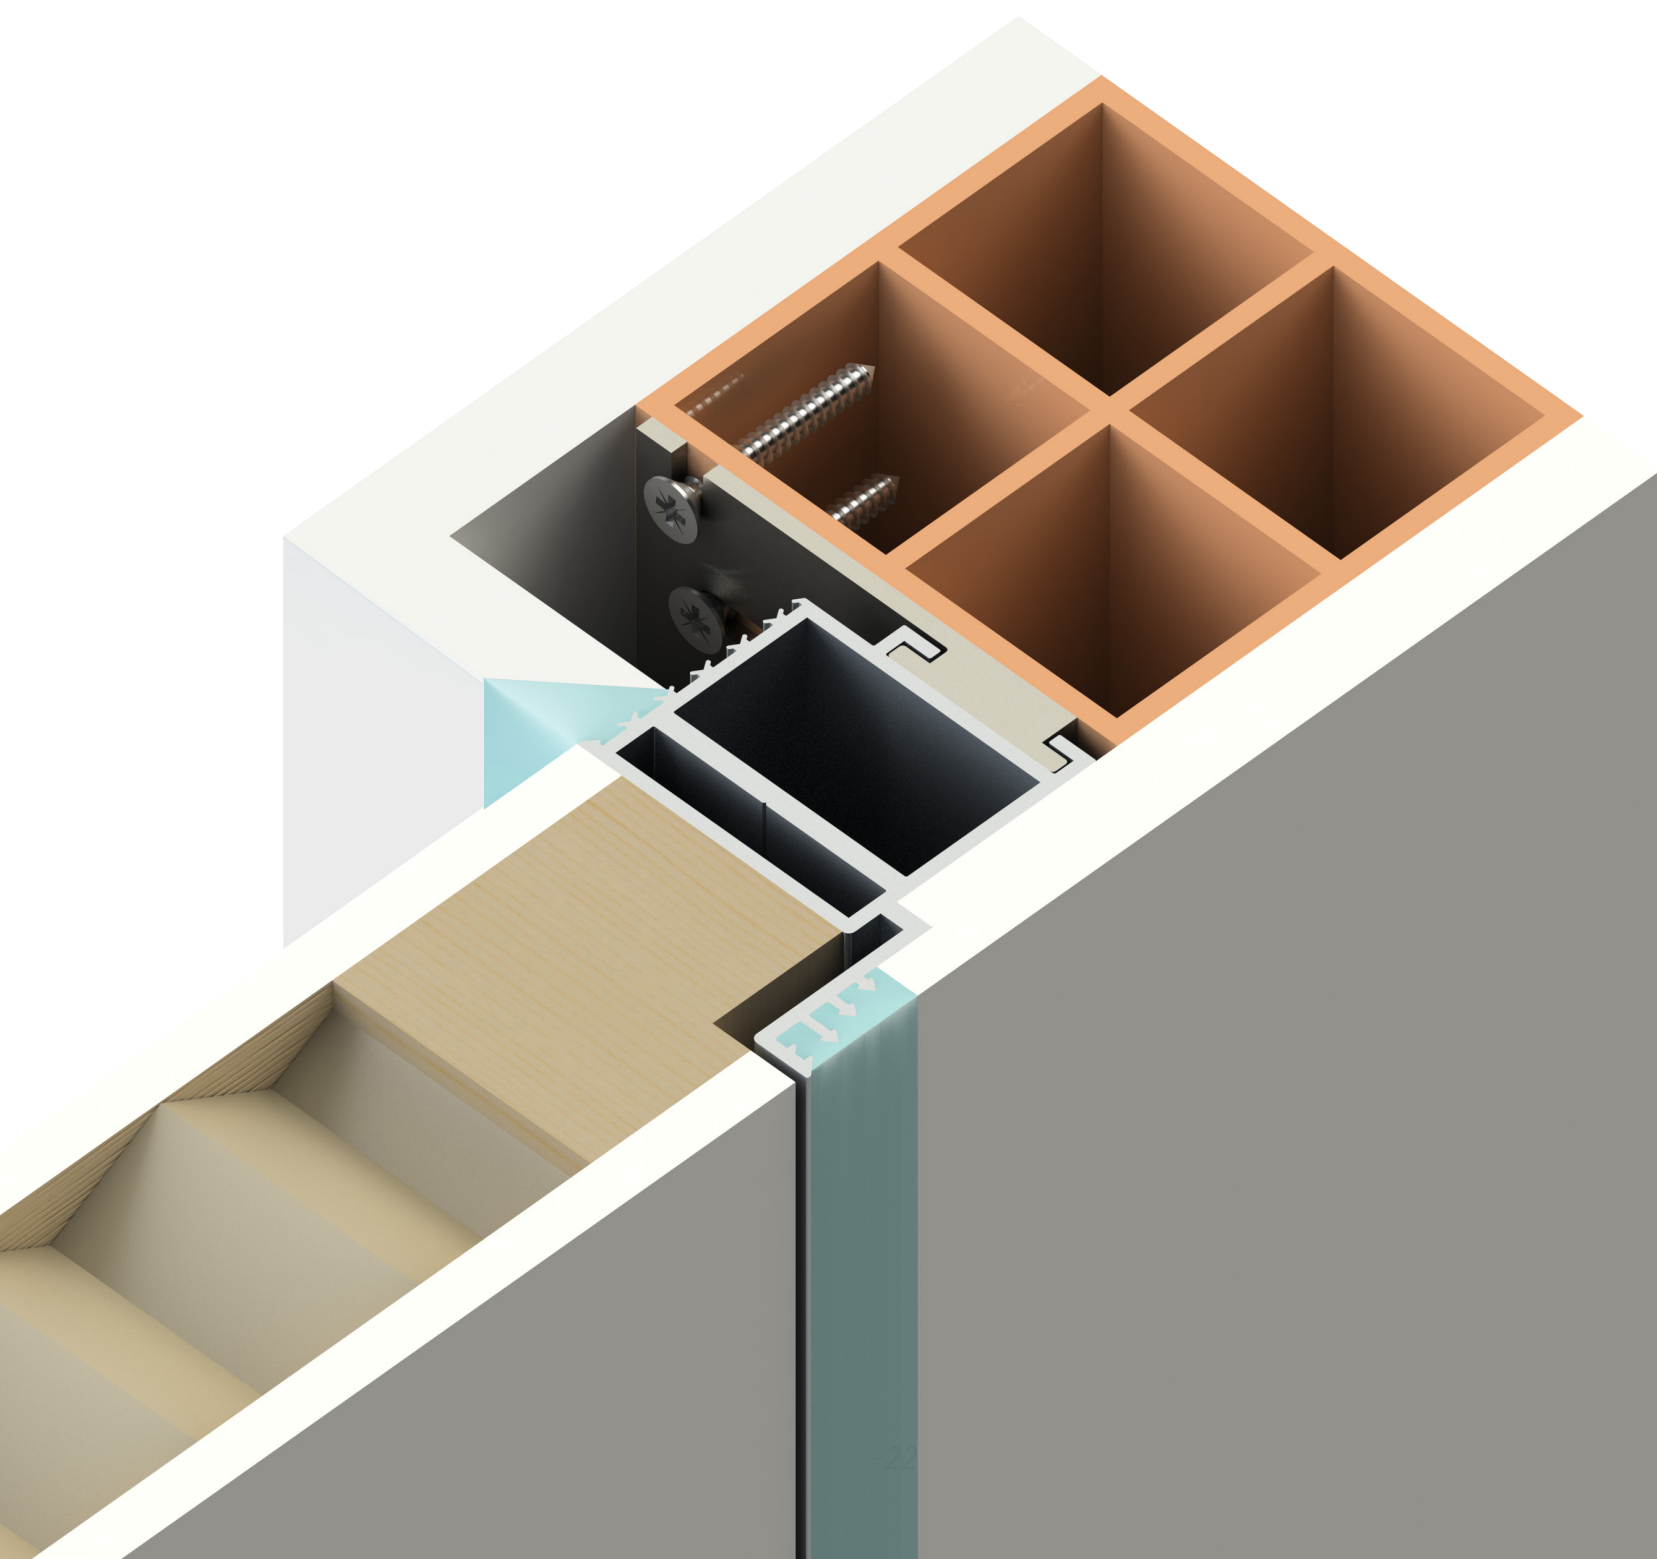

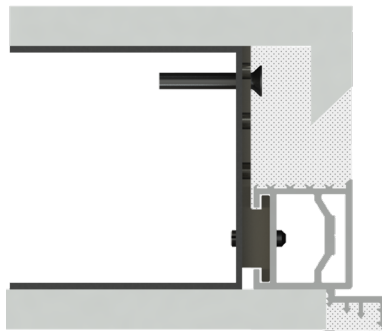

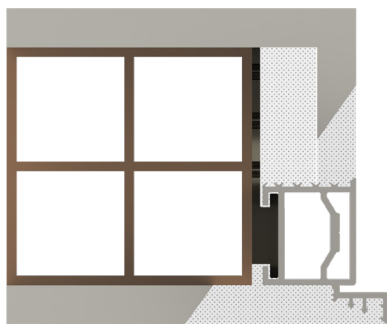

La reversibilidad del sistema se determina durante la instalación: invierta el marco para definir la dirección (tirando o empujando) simplemente volteando el ala, puede establecer la dirección de apertura, derecha o izquierda.

The Minimal Plus flush door aluminum technical frame is design for door thickness up to 55mm. The aluminium profile's geometry allows the use of concealed hinges which can stand heavier doors than Minimal Profile and allows the use of rubber-strips that give us accoustically insulated doors.

*Minimal plus profile offer a wide range of possibilities for all projects that need a space without visual interruption due to profile's integration with visual space
Funcionality at the service of asthetics without forgetting efficiency and quality*

The reversibility of the system is determined during installation: reverse the frame to define the direction (pulling or pushing) by simply flipping the wing you can set the opening direction, right or left.

Rasostone 69mm

Rasostone 69mm

Rasostone es el último modelo de diseño contemporáneo y líneas minimalistas de puerta interior raso muro, que permite la integración total con los revestimientos murales tales como piedra natural, superficies ultra compactas, cuarzos , porcelánicas, etc..

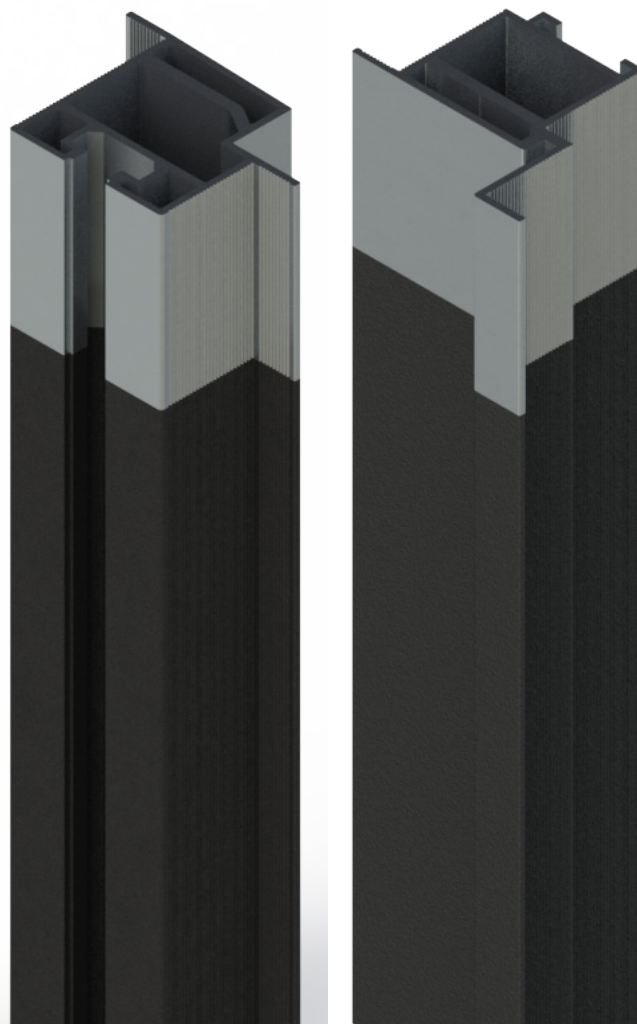

Puertas completamente customizables para cada proyecto que nos permite una continuidad estética y un mínimo impacto visual.

La estructura ligera de aluminio combinada con el herraje permite la fabricación de puertas de grandes dimensiones hasta 200Kg de peso.

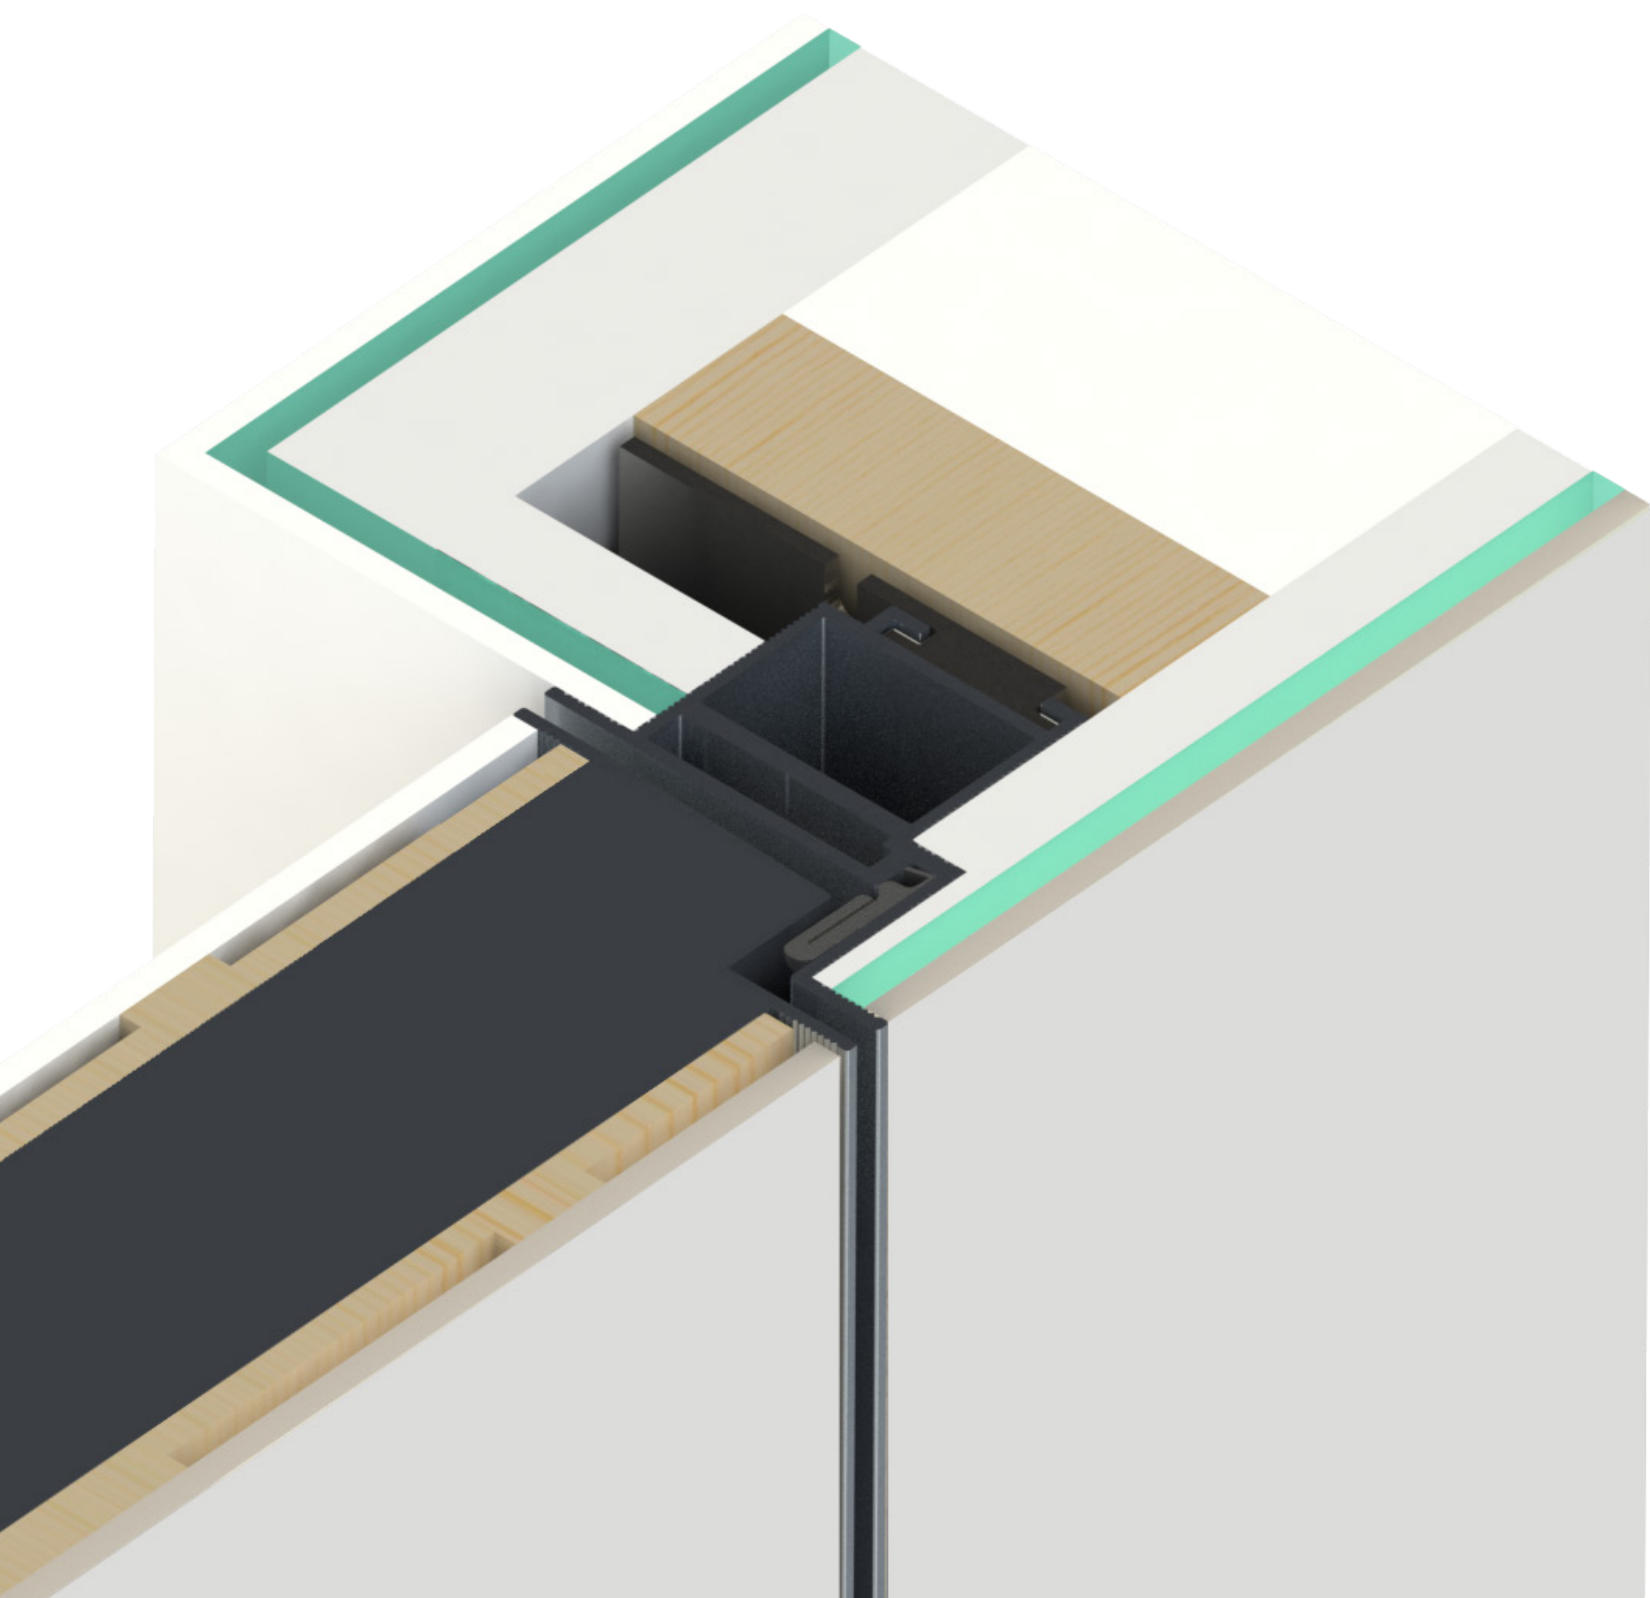

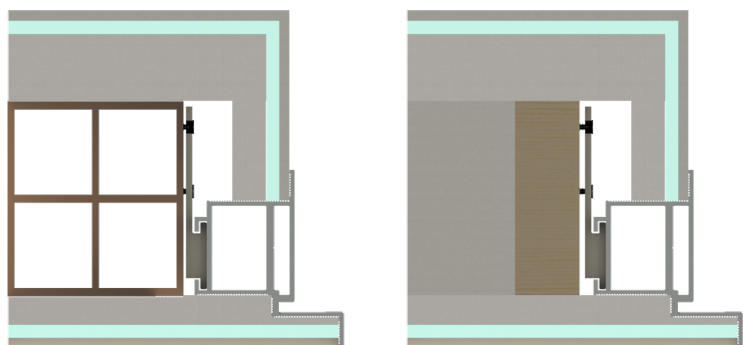

Rasostone is the latest model of contemporary design and minimalist lines of interior flush door, which allows full integration with wall coverings such as natural stone, ultra compact surfaces, quartzs, porcelain, etc.

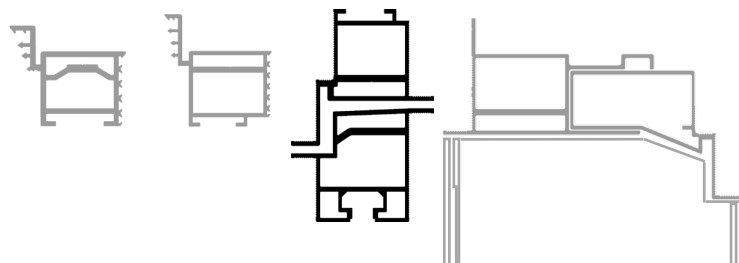

Completely customizable doors for each project that allows us an aesthetic continuity and a minimum visual impact.

The lightweight aluminium structure combined with the hardware allows the manufacture of large doors up to 200Kg in weight.

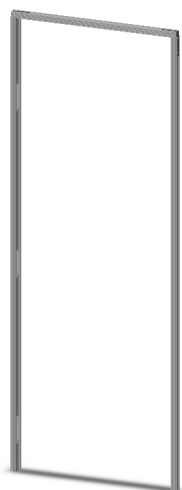

Rasostone 69mm

Infinity

El nuevo sistema infinity rasomuro (patent pending) que nos permite dar rienda suelta a la imaginación pudiendo crear un marco y puerta totalmente extensible; pudiendo adaptarnos a cualquier dimensión de tabique para ofrecer un sistema totalmente enrasado a ambas caras del tabique.

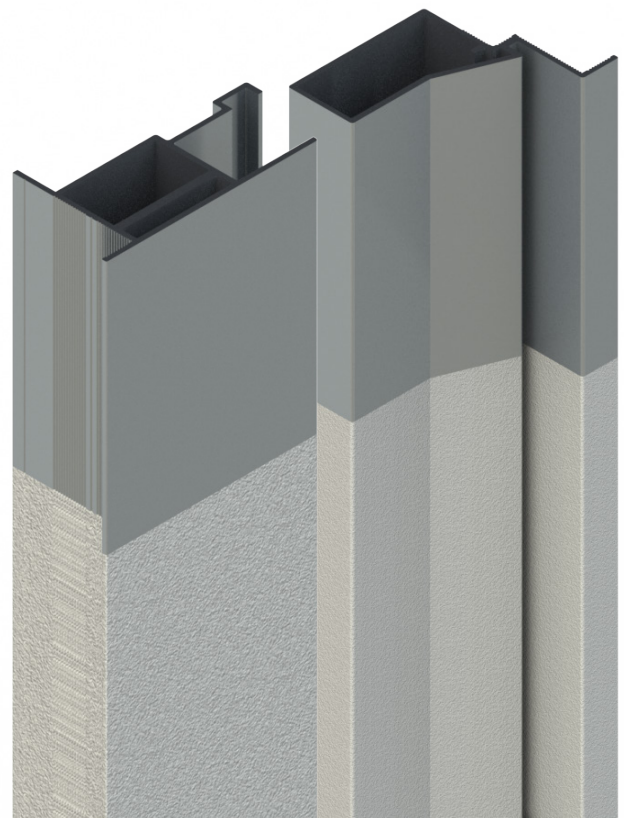

El sistema infinity abre otra dimensión en el mundo de la decoración e interiorismo ya que la integración visual es total en ambas caras del muro dejando ocultos tanto marco como puerta.

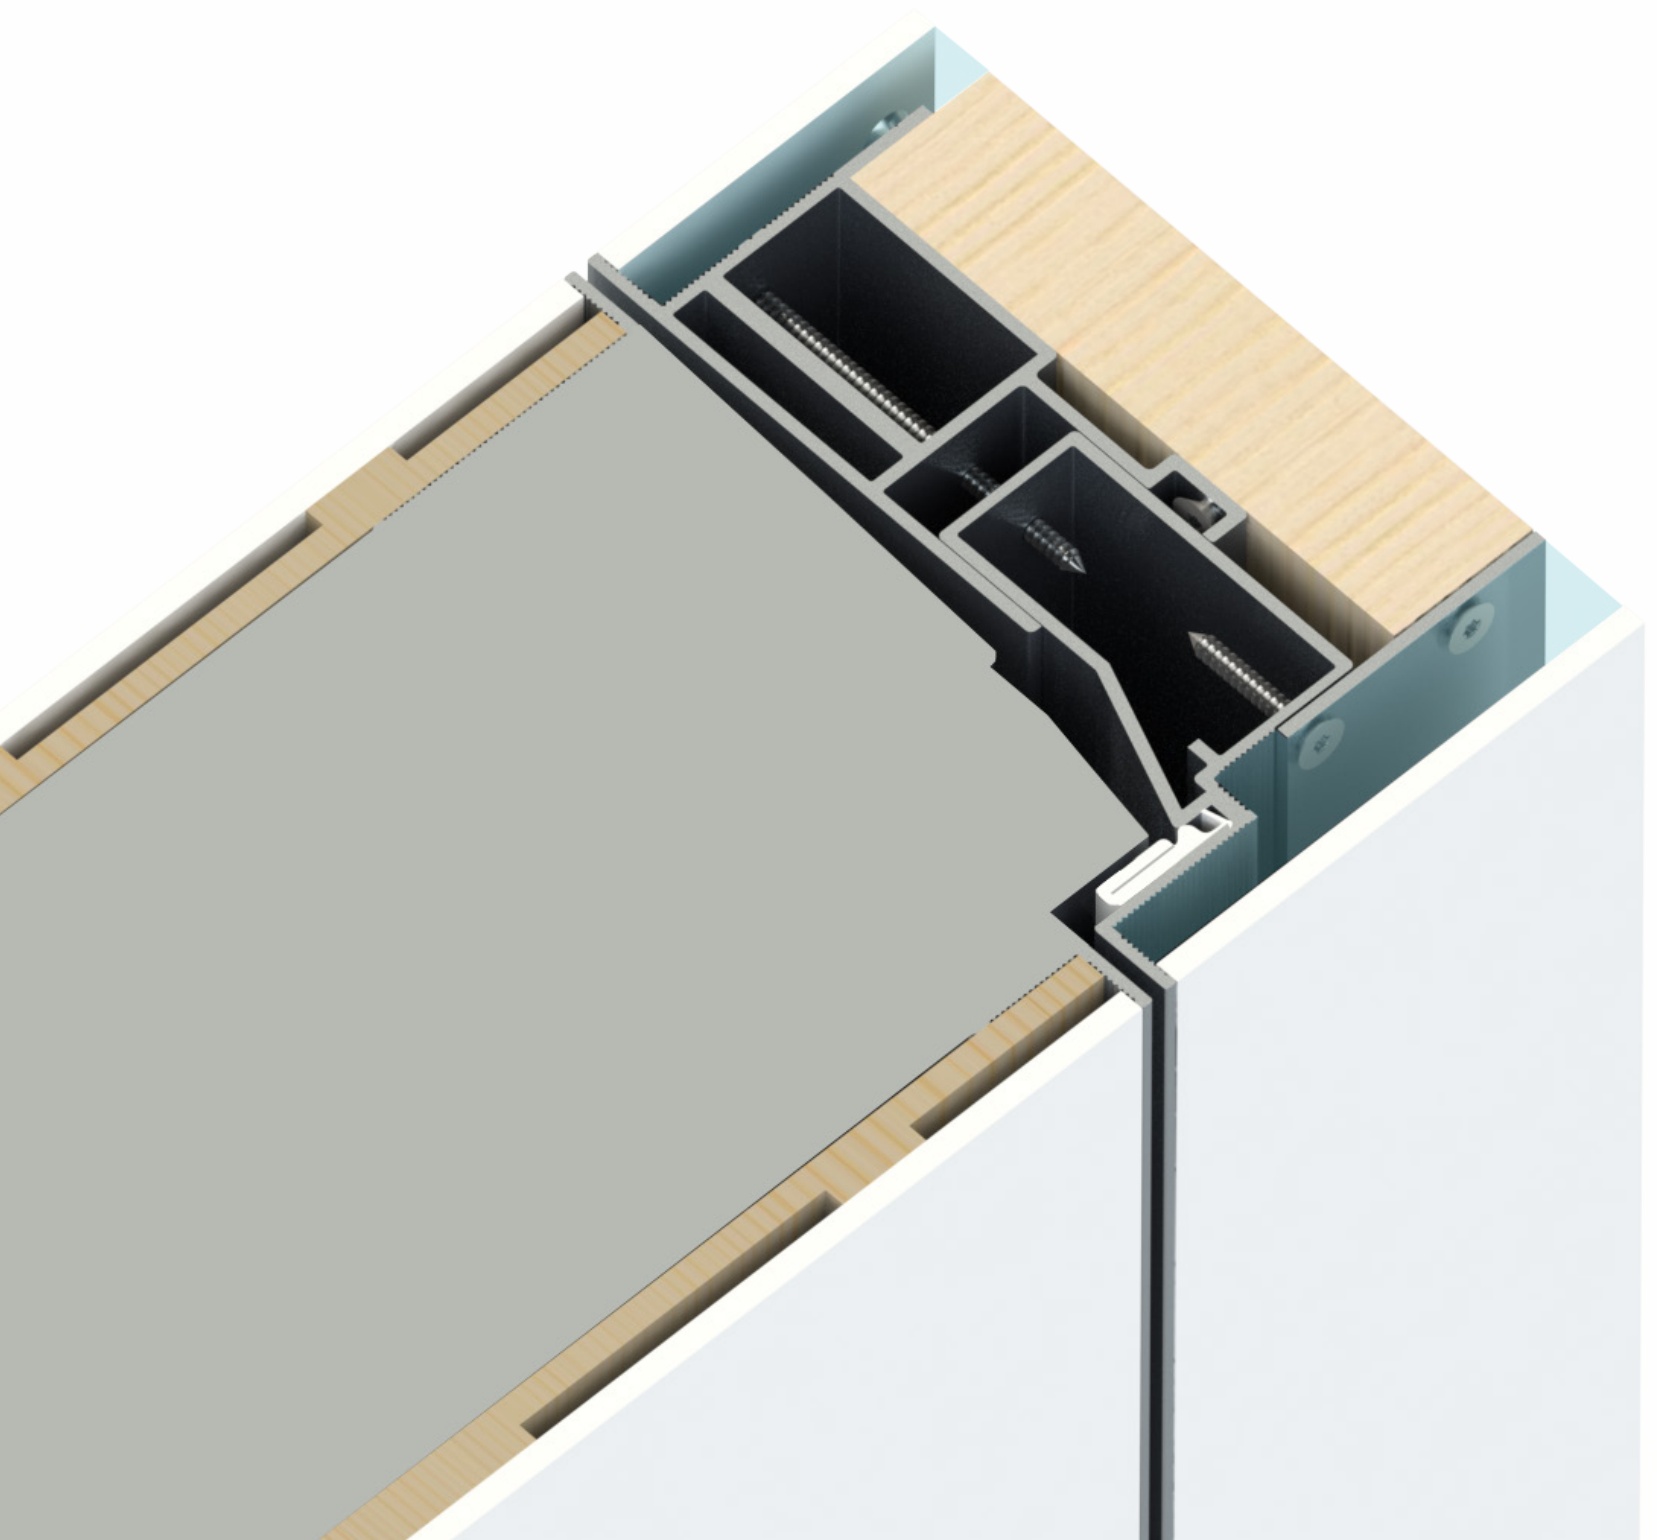

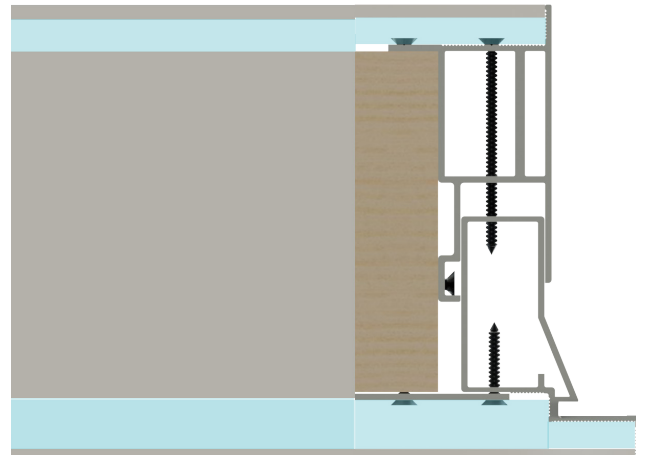

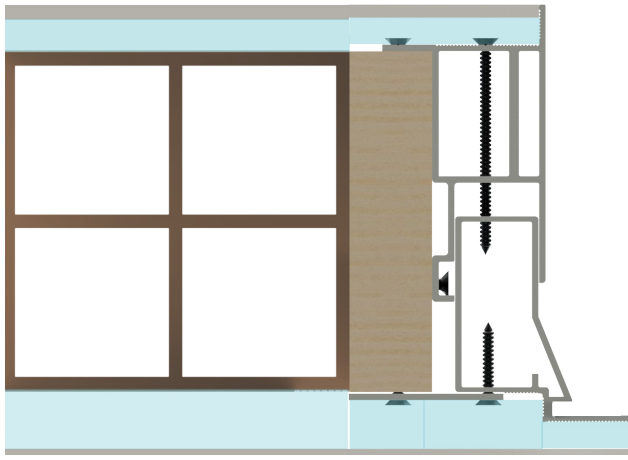

Las posibilidades constructivas del sistema rasomuro infinity junto con las posibilidades de aplacados verticales son infinitas.

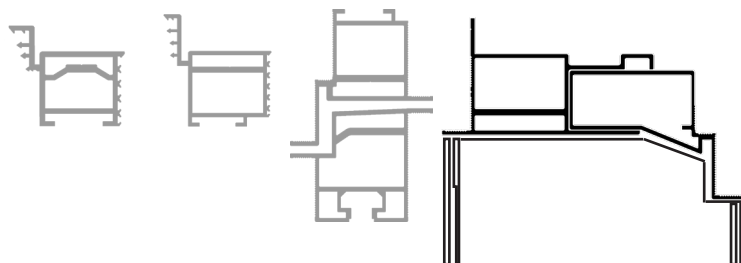

New rasomuro infinity system (patent pending) is a boost for imagination, with the possibility of creating a fully extensible frame and door, we can offer a completely flush system on both sides of any wall size.

Infinity system opens another dimension onto the world of decoration and interior design thanks to the visual integration on both sides of the wall leaving hidden both frame and door.

Any material now can be used for covering
