ISO 9001
BUREAU VERITAS
Certification

Sambeat está certificada con la ISO 9001. Te invitamos a entrar en sambeat.com y ver nuestro vídeo corporativo para conocernos un poco mejor.

fabricando soluciones

SAMBEAT nace como empresa en 1948 siendo la matricería y el desarrollo de moldes su principal línea de negocio.

La evolución del mercado y de nuestro negocio nos ha llevado a especializarnos en la industria del mueble ofreciendo una amplia gama de accesorios y complementos.

En 1995 lanzamos una nueva línea de fabricación basada en la extrusión, corte y mecanización de aluminio complementando nuestra oferta comercial y dando una solución global a los principales fabricantes de mueble a nivel nacional e internacional.

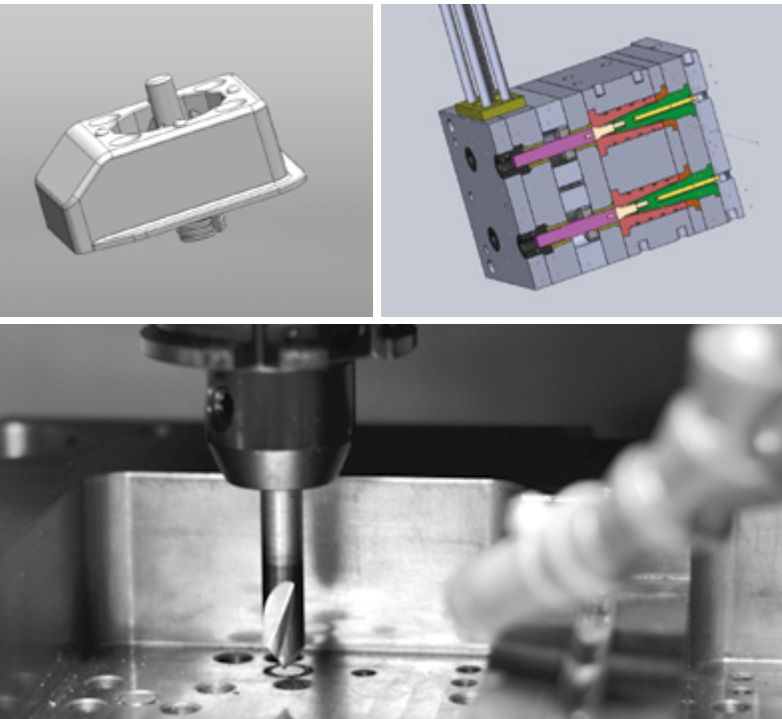

Actualmente somos líderes en la fabricación de patas y tiradores para mueble, perfilaría de aluminio, accesorios para cocina, baño y terminales plásticos.

Nuestra innovación, experiencia y calidad nos permiten trabajar con los principales fabricantes de mobiliario a nivel nacional e internacional en su nuevos proyectos.

Actualmente contamos con 3 plantas de producción en el Polígono de Fuente del Jarro en Valencia, que nos permiten realizar los siguientes procesos:

- Diseño en 3D y prototipado de piezas.
- Taller de matricería.
- Inyección de plástico con un máximo de piezas de hasta 3kg.
- Termoconformado de plástico: medida máx. molde 1.000 x 1.300mm.
- Extrusión de aluminio, mecanización y corte sobre perfiles.
- Cabina de pintura: acabados especiales (goma, madera, serigrafía, impresión digital, etc.)
- Baño electrolítico.
- Envasado y encajado.
- Expediciones.

Contamos con sellos de calidad y de fabricación sostenible.

manufacturing solutions

SAMBEAT founded as a company in 1948 being the tooling and molds development our main business.

The evolution of the market gave us the opportunity to specialized in the furniture industry offering a wide range of accessories.

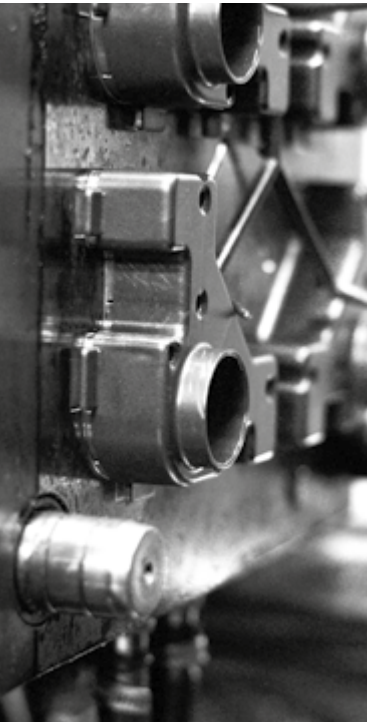

In 1995, we launched a new production line based on aluminium: extrusion, cutting and machining. This line complemented our comercial offer giving us an overall solution to the major furniture manufacturers.

Today we are leading manufacturers of feet and handles for furniture, aluminum profiles, kitchen & bathroom accessories and plastics complements.

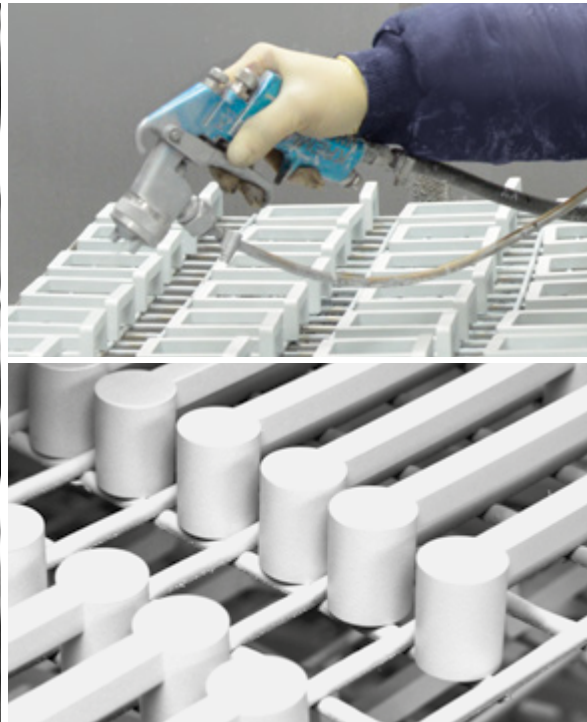

Our innovation, expertise and quality allow us to work with leading furniture manufacturers nationally and internationally in their new projects.

Currently we have 3 manufacturing facilities in the industrial area of Fuente del Jarro in Valencia, which allow us to perform the following processes:

- 3D Design and prototyping of parts.
- Workshop tooling.
- Injection plastic parts up to 3kg.
- Plastic thermoforming:
Mold maxim size 1.000 x 1.300mm.
- Aluminum extrusion, machining and cutting of profiles.
- Painting area: special finishes.
(rubber, wood, silkscreen, digital printing etc.)
- Electrolytic bath.
- Packaging and engaged.
- Expeditions.

Forma[®] LOGIC

Una de las características principales del programa Formalogic[®] reside en su estructura de Aluminio.

Basada en perfiles extrusionados, con acabados en cromo Mate, cromo brillo o madera, ofrecen una gran resistencia y han sido diseñados para dotar al programa de múltiples posibilidades, en cuanto a formas y acabados.

De sencillo montaje, ya sea de suelo a techo o de suelo a pared con terminación en ángulo, cada una de las piezas ha sido estudiada para que queden ocultas formando un conjunto perfectamente ensamblado.

Calidad, versatilidad y funcionalidad, definen nuestras estructuras Formalogic[®].

En la búsqueda de dichos atributos, Formalogic nació del fruto de la colaboración entre profesionales de la arquitectura, el interiorismo y el diseño industrial que volcaron sus esfuerzos en la creación de este programa modular que permite la creación de infinitas composiciones, idóneas para adaptarse a cualquier tipo de espacio y ambiente: librerías, oficinas, vestidores, instalaciones...

One of the main features of Formalogic[®] program is based on its Aluminium structure.

Based on extruded aluminium profiles in different finishes (Matte chrome, polished chrome or wood). This system offers Height strength and is designed to give multiple possibilities in terms of shapes and solutions.

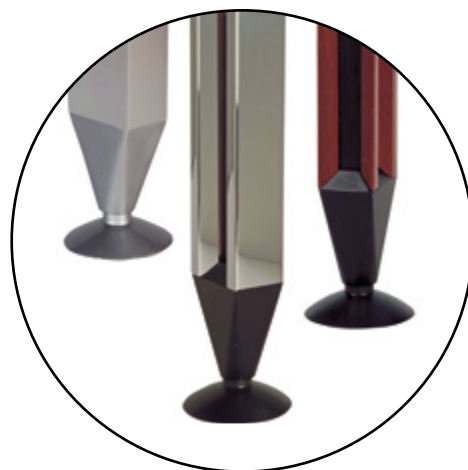

Easy assembly, either floor or ceiling installation, each part has been developed to create a set perfectly assembled hidden any screw o fixation.

Quality, versatility and functionality, define our Formalogic[®] structures.

Formalogic[®] was born thanks to the collaboration between professional architects, interior and industrial designers joining their efforts in the creation of this modular program that allows infinite possibilities for wardrobes, commercial facilities, offices, etc.

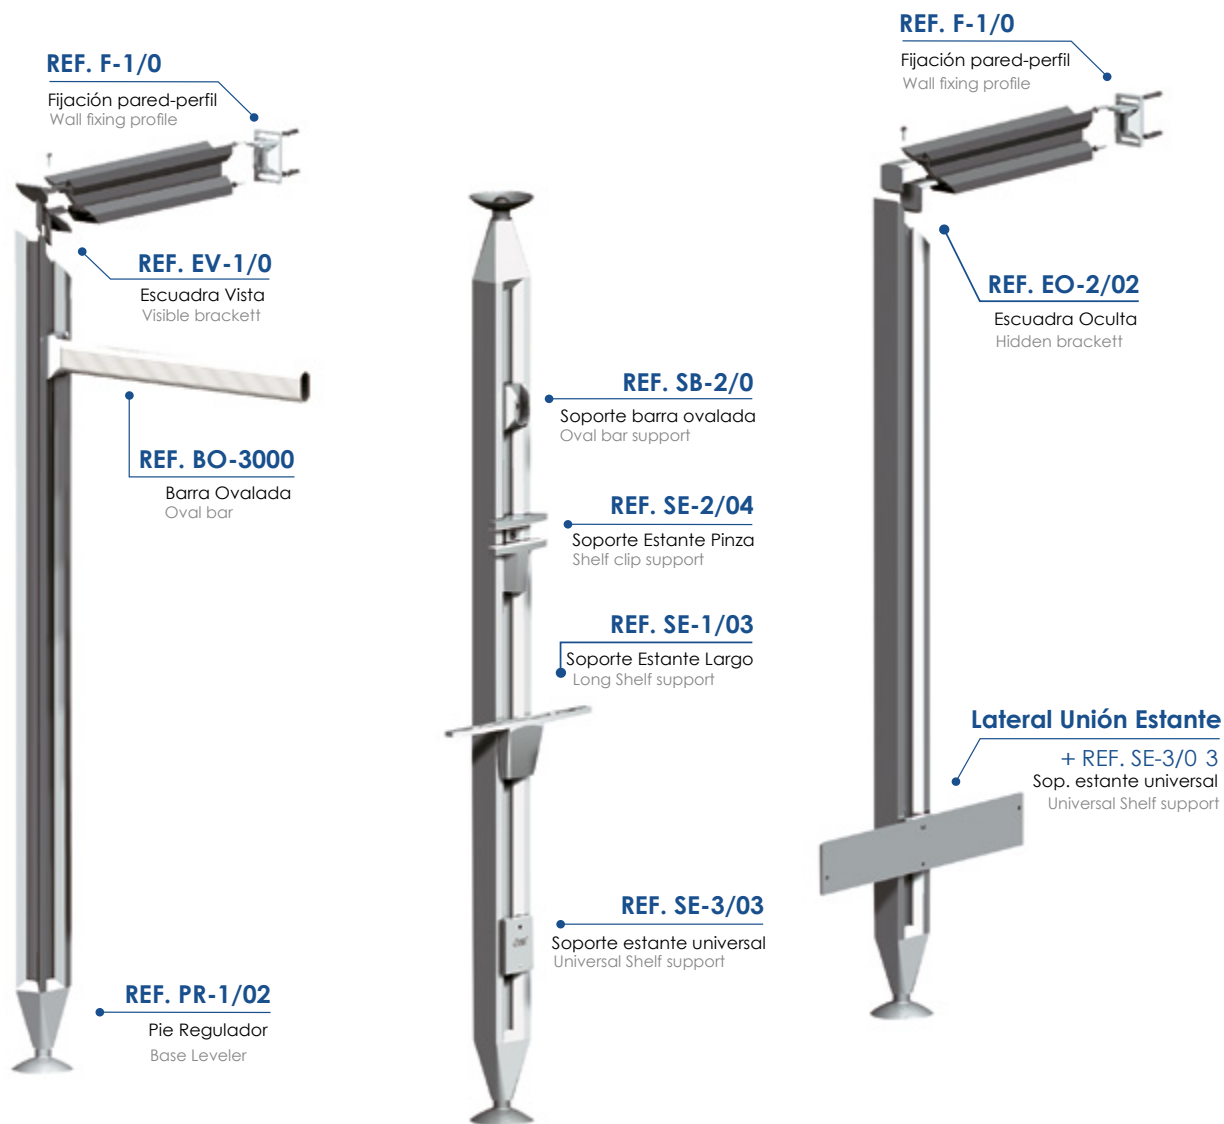

Personaliza el acabado de tu estantería, elige entre un acabado en aluminio liso o bien con un acabado en madera o PVC.
Customize the finish of your shelf in matt anodize, wood or PVC.
